Email: aishanjum010@gmail.com
LinkedIn: linkedin.com/in/ayesha-anjum-b9b223245

PROFESSIONAL SUMMARY:

Motivated BCA graduate with a strong foundation in software development, AI, and computer vision. Skilled in Python, Streamlit, OpenCV, InsightFace, ONNX Runtime, and SQL, with a passion for building scalable and user-centric applications.

TECHNICAL SKILLS:

Programming Languages
- Python
- Java
- C/C++

Tools & Technologies
- Git
- GitHub
- VS Code

Web Technologies
- HTML5
- CSS3
- Streamlit

AI & Computer Vision
- OpenCV
- InsightFace
- ONNX Runtime
- Face Recognition
- Computer Vision

Software Development
- Software Architecture & Design
- UI/UX Design Principles
- User-Centric Application Development

Databases
- SQLite
- SQL

EDUCATION:

Bachelor of Computer Applications (BCA)
SJES College of Management Studies
CGPA: **8.7**

PROJECTS:

AI-Powered Smart Attendance System using Face Recognition

Technologies Used: Python, Streamlit, OpenCV, InsightFace, ONNX Runtime, SQLite, NumPy, Pandas

- Designed and developed an AI-powered attendance management system using **InsightFace** and **ONNX Runtime** for accurate real-time facial recognition.
- Built a secure Streamlit-based web application with administrator authentication, student registration, and attendance management.
- Implemented face enrollment, facial embedding generation, and real-time identity matching using computer vision techniques.
- Automated attendance recording with timestamps and generated attendance reports to improve accuracy and reduce manual effort.
- Developed modules for student management, face capture, AI model training, live recognition, attendance analytics, and system administration.
- Designed the application using a modular and scalable architecture, improving maintainability and future extensibility.

CERTIFICATIONS:

- Data Analytics Masterclass | NoviTech R&D Pvt. Ltd. | Sep 2025
- Cybersecurity Job Simulation | Forage | Jul 2025

ACHIEVMENTS:

• Developed an end-to-end AI-powered Smart Attendance System using Python, Streamlit, OpenCV, and InsightFace.

• Achieved a CGPA of 8.7/10 in Bachelor of Computer Applications.

• Successfully completed industry-recognized certifications in Data Analytics and Cybersecurity.
